

RISHEN SOEKHOE

TEST SPECIALIST • TEST AUTOMATION ENGINEER

The Hague, Netherlands

r.soekhoe@live.nl

born 26-08-1992 • Dutch

cv online: see test report site

// test report – all checks passed • 10+ years of test automation • 7 clients • ISTQB • Scrum Master • Scrum Developer

PROFILE

Ambitious, driven and eager-to-learn software tester with strong communication skills and over ten years of experience in test automation within Agile projects. At home in technical environments, analytically strong, and skilled in automated testing of web applications using Cypress (JavaScript/TypeScript), Specflow/Cucumber (BDD) and Spring (Java).

Honed his testing craft at clients such as Logius, RIVM, the Dutch Tax Administration, DSW, Knab and Crédit Agricole — gaining experience with a wide range of test types, techniques and tools. Certified in ISTQB, Professional Scrum Master and Professional Scrum Developer, with new training added every year.

WORK EXPERIENCE

✓ Logius

June 2025 – present

Test Specialist / Test Automation Engineer

Established the test strategy and test automation in a newly formed team rebuilding a legacy application. Built a framework covering unit, component, integration and E2E tests; coordinated all test activities within the team.

Cypress • TypeScript • Java • Spring IT • React • PostgreSQL • Kubernetes • OpenShift • SonarQube • GitLab • Jira • Kibana

✓ IVO Rechtspraak (Dutch Judiciary IT)

January 2025 – June 2025

Test Automation Engineer / Test Coordinator

Adopted, extended and improved existing test frameworks inherited from other teams. Coordinated user acceptance, penetration and performance testing; back-end tests in Specflow, E2E in Cypress.

Specflow • BDD • Cypress • TypeScript • Angular • Postman • RabbitMQ • Kubernetes • Helm • Elastic • GitLab

✓ RIVM (National Institute for Public Health)

June 2021 – December 2024

Test Automation Engineer / Test Coordinator

Advised splitting front-end and back-end test automation, enabling more focused and direct testing. Set up the Cypress framework, extended the Specflow back-end suite and tested map layers via GeoServer. Coordinated acceptance, penetration and performance testing.

Cypress • Specflow • BDD • TypeScript • Angular • GeoJSON • GeoServer • PDOK • PostgreSQL • OpenShift • Kibana

CORE SKILLS

- ✓ Test automation
- ✓ Cypress
- ✓ Specflow / BDD / Gherkin
- ✓ JavaScript / TypeScript
- ✓ Agile / Scrum / CI-CD
- ✓ API & integration testing
- ✓ E2E & regression testing
- ✓ ISTQB / TMap techniques
- ✓ Selenium
- ✓ Test coordination (UAT/pen/perf.)

level: applied independently across multiple projects • also proficient: C#, Java, SQL, unit testing, usability testing

CERTIFICATIONS

- ✓ AI and testing 2025
- ✓ Cypress 2021
- ✓ Prof. Scrum Developer 2018
- ✓ C# for test automation 2017
- ✓ Selenium 2017
- ✓ Requirements workshop 2017
- ✓ Certified Scrum Master 2016
- ✓ ISTQB Foundation 2016
- ✓ Java for testers 2016
- ✓ SQL • HP ALM • UFT 2016
- ✓ Security workshop 2016

EDUCATION

- ✓ Human Technology 2012–2016

✓ **Belastingdienst** (Dutch Tax Administration) November 2020 – June 2021

Agile Test Consultant

Broadened test coverage using expertise in C#, Specflow and Selenium.
Contributed to the organisation-wide testing community, including the internal BDD course.

Specflow · C# · Cypress · SQL · Postman · IntelliJ

✓ **DSW Zorgverzekeraar** (health insurer) December 2019 – September 2020

Agile Test Consultant

Fully tested AZR, a Windows application for client records with many dependencies, including its feeding applications. Tested the transformation to a web application from day one; broadened the test suite with, among others, XML-driven tests.

C# · Specflow · Cypress · Azure DevOps · SQL Server · Postman · Swagger · Vecozo

✓ **Crédit Agricole** July 2018 – November 2019

Test Automation Engineer / Test Lead

Test lead for two Agile teams on project Compensate (refunding overcharged loan interest to customers). Set up test automation from scratch: UI tests in C# with Selenium, E2E tests in BDD format.

C# · Selenium · OutSystems · Sitecore · Specflow · Hiptest · Azure DevOps · Jira

✓ **Knab** (online bank) October 2016 – June 2019

Test Analyst / Test Automation Engineer

Software tester in the Personal Banking scrum team (payments, savings, investments). Regression testing, release coordination from acceptance to production, and built up test automation and brought it into the team.

C# · Selenium · Cypress · Angular · Docker · Jenkins · Sitecore · Azure DevOps · Jira

✓ **Meeùs** 2015 – 2016

Website designer (graduation internship)

Improved the online customer service based on UX research and user testing; the redesigned customer service page delivered better results immediately after going live.

UX research · Hotjar · Google Analytics · Sitecore · Git

BEYOND THE SCRIPTS —

- Online gaming — with players worldwide
- Cooking, preferably for friends and family
- Always up for coffee and a good conversation
